

Meridian

The powerful thin client that offers you amazing multimedia performance.

Power made device

The thin client where power and performance combine to offer a versatile and reliable device. Thanks also to the Intel Gemini Lake Quad Core processor 2.0GHz, Meridian was created to deliver the best performance.

Performance up to 4K

Meridian supports high-definition content, such as 3D and video applications up to 4K Ultra HD, thanks to the Intel UHD Graphics 600 graphics card. The ideal thin client for those who need an amazing resolution.

Multitasking Thin Client

The perfect device for users who work in multi-monitor and multitasking environments: in its two versions, Meridian offers 6 USB ports (one of which is type-C), and an Ethernet port.

Centralized management

Add the ThinMan management console to your new Meridian and start managing your endpoint infrastructure. Also, automate tasks and offer assistance to your users even remotely.
